

**VIA CERTIFIED MAIL-RETURN RECEIPT REQUESTED**

July 1, 2009

Mr. Steven E. Moore, Chairman  
President & CEO  
Oklahoma Gas & Electric Company  
PO Box 321  
Oklahoma City, OK 73101-0321

**Re: Warning Notice  
EB-09-GB-0011**

Dear Mr. Moore:

On February 18, 2009, the Federal Communications Commission notified Oklahoma Gas & Electric Company that it had received complaints from (name withheld) that equipment operated by your utility might be causing harmful radio interference to his amateur radio equipment. (Name withheld)'s contact information is as follows:

(name withheld)  
(address withheld)  
Bethany, OK 73008  
Tel: (withheld)

The February 18, 2009 letter advised Oklahoma Gas & Electric Company that the interference, if unresolved, could be a violation of Commission rules. For this reason, we encouraged Oklahoma Gas & Electric Company to voluntarily resolve the matter without Commission intervention. The letter specifically stated, however, that if it became necessary for the Commission to facilitate a resolution, the Commission might investigate possible rule violations and address appropriate remedies, including monetary forfeitures.<sup>1</sup> Oklahoma Gas & Electric Company did not respond to the February 18, 2009 letter. Likewise, (name withheld) reports that there has been no reduction in the radio frequency interference.

In order to avoid enforcement action on this matter, you have thirty (30) days from the date of receipt of this warning to respond to this office at the following address: 1270 Fairfield Road, Gettysburg, PA 17325. The response must contain a statement of the specific action(s)

---

<sup>1</sup> Fines normally range from \$7,500 to \$10,000.

taken to identify and eliminate the source(s) of (name withheld)'s radio interference. If you have any questions about this matter, please contact me at 717-338-2577.

Sincerely,

Laura L. Smith, Esq.  
Special Counsel, Northeast Region  
Enforcement Bureau
